

TECHNOLOGY WEEK 2018

Agenda

15-19 October
2018 Yerevan
National Polytechnic
University of Armenia

Technological week *NPUA, 15-19 October*

Do you consider that you are the holder of an exclusive technology idea? Do you have a team, Startup project and want to make it real? Either you just want to learn from experienced professionals in the field and listen to tips and tricks or be informed about current events and leading organizations?

So, the "Techno-week" event organized by of NPUA Student Council and Armenian National Engineering Laboratories is just for you.

Within the framework of the program dedicated to the 85th anniversary of the National Polytechnic University of Armenia, the series of events are planned to be held at Polytechnic on October 15-19, where you will find anything by your interest.

During the "Techno-week", within "Open-doors' day" event you will have the opportunity to visit and get acquainted with the University's infrastructures, participate in the Exhibition of Engineering Projects, become a participant of the Innovative Ideas Competition and offer your innovative idea.

All this is accompanied by master classes, seminars, interesting discussions. Within the framework of the "Entrepreneurship Day", you will have an opportunity to meet with representatives of leading industry companies, founding directors and others, to give and receive answers to your questions.

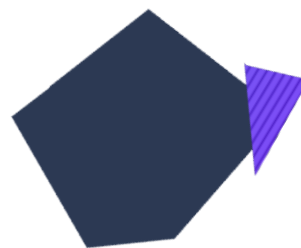

To get involved in "Techno-week", get acquainted with the schedule of events, sign up for the "Open-doors day" event, form your team consisting of 2-5 members and apply for participation in the Innovative Ideas Competition. Receive the opportunity to work with your team, get advices from expert, develop your innovative idea and present it to an experienced jury.

Become one of the best teams and get the prize, and most importantly, make your idea listenable to the potential investors.

The deadline for submission of applications for the Innovative Ideas Competition is October 15.

Sign up and inform your friends!

Hurry up to become of participant of the most technologically advanced week of the most technologically advanced HEI.
